

Étapes d'assemblage de la navette spatiale

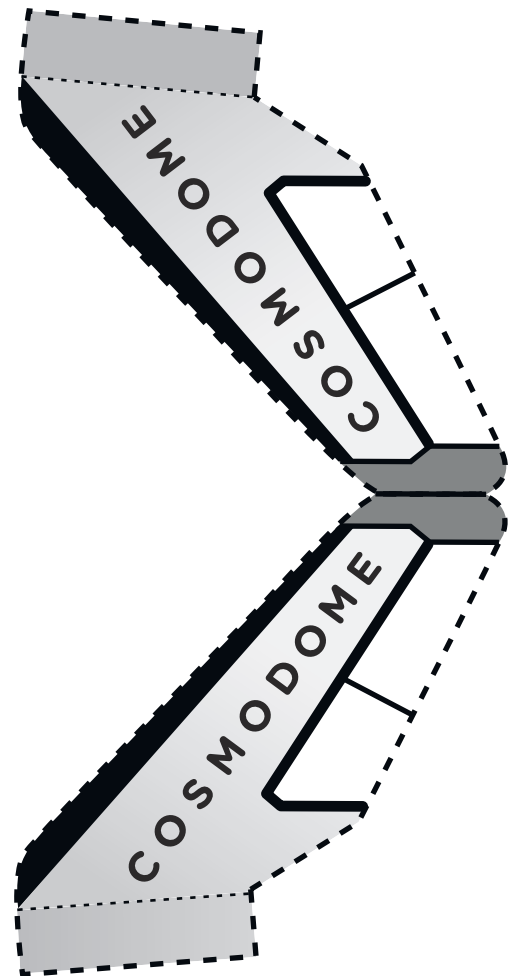

1. Enlever tous les morceaux du gabarit.
2. Plier le gouvernail. Coller les deux côtés ensemble et le coller sur l'Habitacle.
3. Plier et coller les bandes du côté de l'Habitacle sur la Base.
4. Plier et coller les bandelettes de chaque côté du nez sous la Base.
5. Plier et coller la bandelette du devant du nez.
6. Coller le Dessous sous la Base.

Steps for assembling the space shuttle

1. Remove all pieces from the template.
2. Bend the Rudder. Glue the two sides together and glue it to the end of the Cargo bay.
3. Fold and glue the large strips on the side of the Cargo bay to the Base.
4. Fold and glue the small strips on each side of the Nose under the Base.
5. Fold and glue the small strip at the front of the Nose.
6. Glue the Bottom under the Base.
